5 The Delano

The Delano

The sleek Philippe-Starck-designed hotel lobby dates back as one of the most iconic and striking hotel lobbies in Miami. The designer's signature stark white color is pervasive from the billowing drapes that decorate the lobby and blow against the breeze, offset by the dark floors and walls, popping with color from renowned works of art and an awe-inspiring translucent piano—a breathtaking view to walk into. Another bonus is the new haute spot, Doheny Room—a hit LA lounge that just debuted in Miami—just steps away from the lobby in the old Bianca space.
